

Global Association of Risk Professionals (GARP)

Jersey City, NJ

Positions in Risk Management Education and Certification

- **Assistant Vice President, Energy Risk Professional (ERP®) Program**

Who We Are

The Global Association of Risk Professionals (GARP) is an independent, globally recognized, certifying body and membership association serving the risk management industry. Through the Financial Risk Manager (FRM®) and Energy Risk Professional (ERP®) certification programs, GARP strives to set a global standard of competency in the risk management industry. We are currently seeking a qualified candidate to join our Research and Educational Programs Group, in the support and development of the ERP program.

The Energy Risk Professional (ERP) Program

The ERP is the first and only certification program for global energy market professionals. The ERP Program consists of a rigorous examination covering topics that assess each candidate's knowledge of physical energy commodities, electricity markets and renewable generation, financially traded products, and the tools used to measure and manage market, credit, and operational risk.

Position, Responsibilities and Requirements

The successful candidate will join GARP's Research and Educational Programs team, a dynamic group that is committed to the excellence of GARP's professional certification programs.

The **Assistant Vice President, ERP Program** will be actively involved in the production of the ERP examination and related program materials.

The role encompasses a range of responsibilities that include, but are not limited to:

- Support of curriculum development
- Program content and exam development
- Review and editing of exam content and other program-related material
- Support of initiatives to generate program awareness
- Involvement in professional outreach initiatives with some travel required

Required skills and attributes for the position include:

- Excellent writing skills with an ability to communicate in a clear and concise fashion
- Analytical thinking, creativity and intellectual curiosity
- Self-motivated and disciplined with the ability to meet deadlines
- Strong organizational and time management skills
- Excellent interpersonal skills
- Ability to work well in a team

Background or experience desirable for this position includes:

- Energy commodities, electricity markets, commodity trading, consulting, and/or risk management
- Teaching or other academic experience
- Professional certification and/or professional association
- Graduate degree (MS/MA/MBA/PhD) in economics, engineering, finance, international affairs/public policy, political science, statistics, or other appropriate discipline
 - Consideration will be given to applicants with a graduate degree in education, applied psychology or other field relevant to exam development
- ERP, FRM or other meaningful professional certification

GARP offers competitive compensation, a pleasant work environment, and generous benefits.

If interested and qualified, please contact Michael Sell by email at wmichael.sell@garp.com. Please include your resume and a cover letter indicating your experience and how you believe you can contribute to the development of GARP's certification programs.

Candidates must be US citizens or eligible to work in the US under the laws of the Immigration and Naturalization Service.
